How it works

1. To receive the alerts you will need to download a free one-way messaging app called Telegram. You can either search for this on your app store, or use the relevant link below.
 - Google Play for Android: <https://play.google.com/store/apps/details?id=org.telegram.messenger>
 - App Store for Apple: <https://apps.apple.com/gb/app/telegram-messenger/id686449807>
2. To use the app you will need to enter your phone's number - this will not be visible to anyone including the channel admins (the Rangers).
 - It doesn't matter whether you allow the app access to your contacts or not.
3. Once the app is downloaded, you will need to use the unique invite link that we will send to the email address you have provided on this form. This will allow you to join the 'Durlston Wildlife Alerts' channel.

Your subscription will automatically end after 1 year. We will send you reminder for if you would like to re-subscribe and be sent a new invite link to re-join the channel.
